

THE CBIT + TMS STUDY

Participate in Tic Research

Do you or your child make uncontrollable movements or sounds called "tics"?

To participate, the person with tics must be:

- 12-21 years old
- Right-handed

All eligible participants receive Comprehensive Behavioral Intervention for Tics (CBIT), an established therapy for tics.

Compensation for your time will be provided.

If you are interested, please fill out this contact form
and our team will reach out to you:
